Signature:

Hear Us Croydon's Mental Health Service User Group

To promote, educate, communicate and empower, For the benefit of all mental health service users' Interest.

OUR AIMS AND OBJECTIVES

- To actively campaign with users on issues raised by users themselves.
- To reach out to all service users to encourage and support participation in the Croydon User Council.
- To actively oppose discrimination against service users in Croydon.
- To support a user council in which to discuss and debate current concerns.
- To offer service users a communication platform for the constructive exchange of ideas on issues affecting them.
- To campaign for improvements in mental health services.
- To provide a wide range of information about local/national services and issues that concern users of mental health services in Croydon, through our Newsletter and Web site.

To promote, educate, communicate and empower, for the benefit and interest of people affected by mental health issues

Hear Us is the Mental Health Service User Group which acts as a coordinating body to facilitate, and ensure service users involvement in, the planning, delivery and monitoring of mental health services in Croydon. Helping to improve the quality of the services commissioned and delivered in Croydon

Hear Us:

- Represents** the views of people that use the local mental health services in Croydon to service providers and commissioners.
- Contributes** to the local mental health promotion agenda, and promotes positive mental health within the local community.
- Promotes** mutual respect and equality of rights and opportunities, regardless of disability, with particular reference to local mental health service users and service survivors

We attend regular committee meetings with South London and Maudsley Trust (SLAM) and Croydon Primary Care Trust (PCT), and other planning and monitoring meetings to represent the voice of service users by ensuring service user representation at these meetings. **We are looking to recruit service users as volunteers to participate at these meetings, please call us on 020 8681 6888 if you would like to get involved.**

We also promote empowerment by influencing decision making by organising and facilitating 'Service User Representative Groups' in adult mental health service outlets; statutory, voluntary and community services. We have a project called **Linkworking**, holding group meetings with in-patients on:

- The Wards at Bethlem
- Croydon's CMHT Resource Centres

At these meetings you will be able to:

- Improve life on the Wards & CMHT
- raise your concerns about the service you receive
- feed back and give constructive criticism that could influence decision making
- identify areas where your Ward, Centre & Service can improve
- identify areas where you feel unsupported
- and get those 'grumbles of disapproval' heard

If you think your centre/group needs a 'Service User Representative Group' forming which would voice your collective opinions and influence current and future policies made by

the providers; then please contact us on 020 8681 6888

We also produce a quarterly service user newsletter, and maintain a web site, which includes information about our organisation, the Croydon User Council, local and national service and includes details of Self Management programmes.
